

Recently purchased XM radio because my other radio frequently went silent; then I discovered the wonderful variety of programming on XM--I can always find some program to enjoy.

Even though I pay monthly for the XM service, it is well worth it, and I do believe that it is not the NAB's prerogative to dictate what I listen to. I do not have television (and do not want it) so radio is my only source of entertainment. PLEASE LET IT ALONE! PLEASE DENY THE NAB'S PETITION 04-160.

Thank you.
